As we discussed on the telephone today, I discovered that our Region did not forward the attached letter from Joel Schneider at Frumkin and Manta to your office for transmittal to other Regions. Mr. Schneider needs the information by September 15 since his firm is defending a case EPA has filed against his client.

I would appreciate it if you would ask the other Regional Offices to respond as quickly as possible since there has been a delay in forwarding the letter to them. Thanks for your help.
